ORIGINAL ARTICLE MANUSCRIPT	
ABSTRACT	- '
14 Written in the past tense, with a maximum of 250 words.	
Must include: introduction, materials, methods, results, and conclusions (IMMRC). Acronyms, abbreviations, a references are not allowed.	and
16 Keywords: Maximum of 5, preferably not extracted from the title (must be in the UNESCO thesaurus).	
17 English texts (title, abstract, and keywords) must be written or reviewed by a professional translator. Machine	,
translations are not accepted.	
INTRODUCTION	
Present the problem, opportunity, and justification for the study.	
19 Explain the importance and objectives of the manuscript.	
20 Must be supported by citations from relevant literature (included in WoS, Scopus, or SciELO).	

21	In taxt citations must strictly follow ADA (7th adition) quidalines	
21	In-text citations must strictly follow APA (7th edition) guidelines. If using endnotes, they must be descriptive and not integrated into the general citation system. Footnotes are not	
22		
MET	accepted. FHODS AND MATERIALS	
23	Describe the approach, population, sample size, sampling type, instruments, techniques, and statistical analysis.	
24	** Environment: Detail collection procedures, scientific/drug and chemical names (with generic names), doses, and administration routes, along with the corresponding literature.	
25	** Humans or animals: Comply with international ethical standards (institutional ethics committee approval and informed consent documentation).	
RES	SULTS	
26	Present the results according to the study objectives, using clear titles and subtitles.	
27	Use tables, figures, and graphs when necessary to complement the text, ensuring they are self-explanatory, correctly	
	numbered, and cited in the body of the text.	
DIS	CUSSION	
27	Explain how the findings contribute to the advancement of scientific knowledge and highlight their practical,	
	methodological, or theoretical implications.	
28	Compare the results with similar studies, identifying coincidences, discrepancies, or novel contributions.	
29	Avoid repeating the results and maintain a focus on their analysis, interpretation, and scientific relevance.	
	ATIONS AND REFERENCES	
30	At least 65% of the references must be from the last 5 years.	
31	The use of reference managers such as Mendeley, Zotero, or EndNote is recommended.	
32	Shorten all web addresses in references using https://bitly.com.	
	BLES AND FIGURES	
33	Consecutive numbering.	
34	Photos: JPG or TIFF format, with a resolution of 300 dpi.	
35	Diagrams and maps: PDF, SDR, AI, or XLS formats.	
36	Tables: Dimensions of 12 x 18 cm, with table headers and/or figure captions.	
37	Include all graphics in editable formats (modifiable) and a copy in PNG.	
38	For experimental designs, attach original and processed data in Excel. Each table or figure must be submitted in a	
	separate file (Table 1, Table 2, Figure 1, etc.), without passwords that prevent editing.	
39	Figures should not be embedded in the text; they should move with the content if it is modified.	
40	Avoid using colored backgrounds in table cells.	
41	It is not necessary to include the phrase "Source: own elaboration" in figures or tables.	
	RMAL ASPECTS	
42	Avoid using foreign words when there is an equivalent in Spanish.	
43	Review the text to eliminate spelling, punctuation, structure, and writing errors.	
44	Avoid consecutive section and subsection titles without intermediate text.	
45	Strictly adhere to the norms for the use of bold, uppercase, italics, and underlining.	
46	Use font size 10, single spacing (1), and no tabs.	
47	Remove all double spaces.	
48	Disable automatic numbering of headings and number them manually.	
49	The work must be reviewed by an external reviewer to ensure grammar and style.	
50	Number all lines of the article.	
51	Present the text in a single column.	
	t in a senarate Word file	

^{*} Sent in a separate Word file.
** Considered if applicable.
